Classification: confidential

# Overlay YO

## Fabric jacket

The «Overlay» concept is born from **Aldo Drudi's creative mind** and has been developed by Ducati in collaboration with **Spidi**. The design is inspired by the latest fashion runaways and the concept consists in a playful combination of **different layers**.

Full-face helmet

Composite fiber shell (ultra-carbon externally) full-face helmet produced by **Nolan** for Ducati.  
Designed for motorcyclists looking for:

- > Sporty style
- > Maximum Comfort
- > Lightness
- > Aerodynamic finesse

### Dual use

- > Both for track and road use

### Sleek and sporty design

- > Optimized spoiler for improved aerodynamics performance

### Camel bag predisposition

### Compliant to the highest safety standards

- > Available in ECE 22-06 and DOT homologations

### 2 colour versions

- > Black/red and white/red

### Advanced NERS

- › Featuring an advanced version of the Nolan Emergency Release System (NERS), this helmet ensures swift and secure removal in critical situations, prioritizing your safety above all else.

### Safety visor lock system

- › This helmet guarantees that your visor remains securely in place during intense racing conditions preventing the risk of accidentally visor opening at high speeds.

### RAF

- › The exclusive Racing Air Flow system optimizes ventilation for racing conditions, keeping you cool and focused even at high speeds..

### RAS

- › The Racetrack Aerodynamic Spoiler enhances aerodynamic efficiency, contributing to the helmet's remarkable performance on the racetrack. Its shape has been designed to maximize the aerodynamics performance after several CFD (Computational fluid dynamics) simulations
